

This clinic will afford all those attending an opportunity to discuss the rules that give them trouble. All participants will be asked to submit a card with the rule/situation they feel is most confusing or least understood. All questions will be discussed (time permitting).

Attendees will be asked to act as players and umpires to role-play situations. This will require some running on a controlled basis. Students should consider implementing some type of exercise program - i.e. walking, biking, etc. - prior to participation in this clinic.

Everyone attending will receive instruction on the Little League field, the Junior/Senior/Big League baseball field and will also receive instruction with the aid of pitching machines on the finer points of plate mechanics.
